Gateway Course Success

Ten of our senior students successfully completed the Working at Height Advanced Gateway course at VHNZ Papakura Training Centre over the school holidays. This course provided valuable hands-on learning and helped students gain practical skills towards their future pathways. Well done to all students who participated and represented the school so positively!

Jazaakallahu Khairan to the parents/caregivers who have paid the attendance dues in full. Those parents who have not paid, please pay immediately as the whole years fees must have been paid by end of Term 2.
