

Visit from Jakarta Islamic School (JISc), Indonesia

Yesterday, we had the honour of welcoming a group of teachers from Jakarta Islamic School (JISc), Jakarta, Indonesia to Al-Madinah School. Their visit was part of a professional development and global engagement initiative, giving them the opportunity to observe and learn from the teaching and learning practices in our school. During their time with us, the visitors explored areas of shared interest including:

- Effective teaching methodologies and classroom strategies
- Curriculum design and the integration of Islamic values with general education
- School culture and leadership approaches
- Use of educational technology and management practices
- Opportunities to explore potential partnership between our schools

The exchange was a wonderful opportunity for meaningful dialogue and collaboration. We were delighted to host our guests from JISc and look forward to building stronger ties and sharing knowledge in the future.
