Term 2 2026

WELCOME BACK!

Term 2 will be a busy term for our senior students. The girls will be attending camp in Week 1, and the secondary boys will be involved in their production. In addition, several internal assessments are scheduled for senior students throughout the term.

The year 9 and 10 students will also take part in the South Auckland Maths Challenge.

The newly refreshed Mathematics curriculum was implemented in Years 9 and 10 during Term 1. These changes are designed to strengthen students' foundational mathematical skills. The revised curriculum provides students with the concepts and tools necessary to investigate, represent, and connect mathematical situations, as well as

to generalise, explain, and justify their findings. This approach is intended to enhance learner readiness and ensures students are well prepared for a range of academic and vocational pathways in Mathematics at senior levels.

Looking ahead to Term 2:

Years 9 and 10 will cover the topics **Number, Probability and Measurement** this term.

Year 11 students will study **Number, Algebra, Measurement,** and **Geometry** followed by an internal assessment by the end of the term.

Year 12 students will study **Trigonometry, Coordinate Geometry,** and **Simultaneous Equations** during the term. Each topic will be followed by an internal assessment.

Year 13 students will continue with their study of **Simultaneous Equations**. Those students who have chosen to sit external standards have also started studying the topic of **Differentiation** in preparation for exams.

TEACHERS IN THE DEPARTMENT

We wish to formally acknowledge the support and commitment of Ustadah Batul Pathan, who undertook the teaching of Mathematics for

Years 9 and 10 during Term 1 following the resignation of **Ustadh Subhan Khan**.

Ustadh Subhan Khan has made significant contributions to the Mathematics Department over the years, and his dedication and service are sincerely appreciated.

We welcome Ustadh Ashif to the department. He is teaching Mathematics to year 9B.

Teachers in the department are:

Teacher	Classes
Syeda Shagufta Naz syedans@al-madinah.school.nz	Maths Year 9G Year 12G
Imron Ali imrona@al-madinah.school.nz	Maths Year 11B Year 12B
Mohammed Ashif Khan ashifk@al-madinah.school.nz	Maths Year 9B
Shabina Nabijan shabinan@al-madinah.school.nz	Maths Year 10G Year 10B Year 11G Year 13G Year 13B

Assessments

The tentative dates for the internal assessments this term are:

Year 11 Week 10 Based on a combination of Number, Algebra, Measurement & Geometry.

Year 12 Week 3 Trigonometry
Week 7 Coordinate Geometry

Year 13 Week 4 Simultaneous equations
Week 10 Linear Programming

The year 9 and 10 students will also sit an online assessment using the SMART tool.

Year 12/13 students who missed their CAA will sit their CAA in May.

We look forward to your continued support to empower the students to achieve their best this term.

Shabina Nabijan
Head of Department - Mathematics
