Term 4 2026

Assalamu Alaikum

As we head into Term 4, we would like to warmly welcome all the students, their parents and whanau. We commend all our students for their continued effort and perseverance throughout the year. The focus this term will be on consolidating learning, completing key topics, and preparing for the end-of-year assessments. We would also like to acknowledge the support of the parents.

Learning Focus

- **Year 9:** Students will study Statistics and probability: Critical thinking, Algebra: Equations and relationships and Geometry: Spatial reasoning - and revise key concepts covered throughout the year in preparation for their end-of-year exams.
- **Year 10:** Students will study Statistics and probability: Critical thinking, Algebra: Equations and relationships and Geometry: Spatial reasoning - and revise key concepts covered throughout the year in preparation for their end-of-year exams.

- **Years 11–13:** Senior students will continue their learning programmes and focus on revision to ensure they are well prepared for the upcoming NCEA external examinations.

Examinations

The end of year exams provide valuable insight into student progress and help guide learning goals for the following year.

Senior students are encouraged to make full use of tutorials, revision sessions, and past papers to strengthen their exam readiness.

The year 9 and year 10 students will be sitting the end of year exams and they will be expected to thoroughly revise their work.

The Mathematics Department wishes all students sitting external exams the very best.

To our **Year 13 students**, we extend our warmest congratulations on reaching this milestone and wish you every success in your future endeavours.

Shabina Nabijan
Head of Department - Mathematics
